WHY STUDENTS CHOOSE FWI ?

GAIN REAL-WORLD WORK EXPERIENCE

Fashion Week Internship interns gain '**up-close**' and '**hands-on**' industry experience of the fashion industry.

Candidates with relevant experience are hired quicker post graduation, and over **90% of FWI interns** believe that their internship taught them something they didn't learn in class.

'TEST-DRIVE' YOUR CAREER SECTOR

Approximately 70% of FWI applications come from students who have never interned in the fashion industry before.

FWI internships provide the opportunity to 'test-drive' the industry, without the need to make a major commitment, gaining **real insight** into what the industry is really like.

"STEPPING OUTSIDE OF MY COMFORT ZONE, WAS A TRULY INSPIRING FEELING!"

BUILDING PROFESSIONAL NETWORKS

Networking and building strong connections is an important element of the fashion industry, helping interns gain access to advice and support from **industry mentors**, who may also later provide references, or even become **future employers**.

Every year, Fashion Week Internships interns are **hired by their host companies**, either directly after completing their internships, or once they complete their college programs.

MAKE YOUR RESUME STAND OUT

Glassdoor says that 'employers and recruiters spend an average of just six seconds looking at a CV / resume' before deciding whether to consider it further for a role.

That means prospective hires have next to no time to have their CV / resume say something about them, to make a potential employer take note.

Fashion Week Internships domestic and international internship programs help you do just that!
